

HOWTO - CONSOLE TOURNAMENTS

How to Participate in a Console Game Tournament with Other Members

View the rules of play before entering. Enter your Gamer Tag and select the console you wish to play on. Once you submit your entry it will be sent to Global Gamester for review. Global Gamester will then send you an email telling you which teams or players are available for entry into the tournament. You will now have the entry fee taken out of your bank account on reserve. You may wish to withdraw from the pool before it starts to get your entry fee back. Once the pool starts your money is transferred to the pool. Winner receives hundreds and 2nd place receives their entry fee back. GOOD LUCK!!!

All console tournament games are played online by online fair play rules. Also, change your game settings to forward Global Gamester your results for confirmation and easier dispute resolution.

HALO 2 FORMAT: Halo 2 works different than the other tournaments. Halo 2 will have 32 or 64 entries. A set of either 4 or 8 heats will be set up for qualifying into the final game. Winner of the final game wins prize money; 2nd place gets entry fee back.
